EVENT MANAGEMENT KEY

INFORMATIONS PRODUIT

Référence : FD-010-142

Technologies : MIFARE® Classic

DESCRIPTION

4K proximity key is an advanced device operating at a frequency of 13.56 MHz, compatible with MIFARE Plus® and MIFARE Classic® systems. Precision-engineered for efficient, secure event and access management.

Its compact size makes it ergonomic and easy to carry. IP68 certification and IK08 resistance guarantee its robustness and protection against damage from water, dust and impact. Its compact size makes it ergonomic and easy to carry.

Each key is equipped with an 8-character alphanumeric number, and benefits from extra protection thanks to a special lamage, preventing accidental alteration of the number. This feature reinforces durability and integrity of code assigned to each key, ensuring accurate, long-lasting user identification.

In terms of performance, this key operates perfectly in temperature conditions ranging from -20°C to +60°C, offering operational reliability in diverse and changing environments.

In short, the 4K proximity key is a robust, reliable and resistant badge, designed to meet the stringent requirements of event management, ensuring accurate and secure identification.

KEY CHARACTERISTICS

- Size (L x l x Ep): 49 mm x 3 6mm x 7 mm
- IP68 – IK08 certified
- 8-character alphanumeric number etched
- Counterbored to prevent number from being erased
- Operating temperature: -20°C to+ 60°C
