## IPASSAN OPTIONS

### FD-500-570 2VOICE INTERFACE FOR URMET PANELS

No need for this interface if you use our 2-SMART panel. On the other hand, to manage an URMET 2VOICE panel, with our IPASSAN access control system, you have to use our 2VOICE interface to take advantage of a maximum of functionalities.

- Event logging (door calls, door opening from the apartment, lift management)
- Increased security through remote relay
- Lift management by IPASSAN for visitors and resident
- And more...

# FDI MATELEC
